

REMARKS

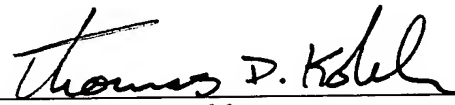

Claims 1-3 are pending in the application. In the office action dated October 27, 2004, the Examiner rejected all pending claims. Claims 1-3 were objected to because of minor informalities. The applicant has made the suggested corrections to the informalities of claim 1.

In this amendment, claim 1 has been amended. Claims 3 has been canceled. Claim 1 includes the subject matter of claim 3. Also, the subject matter of claim 3 has been revised for further clarity thereby obviating the rejection under § 112. In particular, as described in the specification and shown in Figs. 3 and 4, guide pin 25 and rotating pin 23 are separate parts. The guide pin is disposed relatively below the rotating pin in the normal seat operating position and the claim has been clarified in this regard.

In view of the foregoing amendments and remarks, it is believed that the application as a whole is in form for allowance. Should the Examiner have any continuing objections, the Applicants respectfully ask the Examiner to contact the undersigned at 415-442-1106 in order to expedite allowance of the case. Authorization is granted to charge any outstanding fees due at this time for the continued prosecution of this matter to Morgan, Lewis & Bockius LLP Deposit Account No. 50-0310 (matter no. 060945-0180).

Respectfully submitted,
